

Artifacts Around the World

Dear Families:

For next week's sharing, please help your child locate an artifact from another country. It could be a postcard, a souvenir, or even a picture of something.

Your child should be ready to share two or three sentences about the artifact, including what it is and where it is from. We will take good care of these items, but it would be best to send items or pictures that are not valuable or breakable. Sharing will take place over a few days.

Thank you for helping us learn about cultures around the world!
