

Introduction to Responsive Classroom Workshop

Come learn the timeless pedagogy that helps create optimal conditions for academic, social, and emotional learning

The *Responsive Classroom* approach has continuously expanded its influence in the almost forty years since its founding because it is adaptable: it provides strategies and skills that can be taught, practiced, and reinforced in all settings. In this one-day introduction to the *Responsive Classroom* approach, learn practices from this cohesive and transformative belief system that will help you foster positive community, integrate academics with the teaching of social and emotional skills, and create the conditions for positive student behavior.

Key Features

- Participate in interactive learning structures you can use with your class to make lessons more engaging
- Practice using teacher language to guide learning
- Examine how the *Responsive Classroom* approach to discipline can establish a calm, orderly, and safe environment for learning

“

One of the best workshops I have attended in 50 years of teaching!

–Hallie, 2020 participant

Very well organized and inspiring!

–Julie, 2020 participant

It's a really helpful workshop.

–Cille, 2020 participant

”
