

Support Staff Working Together Workshop

A school in which all adults are in sync is a school at its strongest

Students learn and grow best when the adults in their community work together to support them. This makes all adults, including support staff, integral to a school's success. In this one-day workshop, learn how to apply *Responsive Classroom* principles and practices in nonclassroom spaces—such as in the cafeteria, at afterschool programs, and on the bus—in order to create consistency between adult actions and student expectations throughout the day.

Key Features

- Discover how to communicate with students using teacher language
- Practice teaching routines to students using Interactive Modeling
- Learn how to write, share, and enforce rules that support positive student behavior
- Identify strategies for responding to misbehaviors

“

Phenomenal.

—Jerel, 2020 participant

Helpful to seasoned and novice educators.

—Lori, 2020 participant

Beneficial to anyone who works with students at any grade level.

—Brian, 2020 participant

”
